- | | |
|-------------------|---------------------|
| 🛡️ Cyber Security | 📄 Linux & Scripting |
| 🐛 Bug Hunting | 🔄 Open Source |
| 🏆 CTF Challenges | 📝 Web Development |

ABOUT ME

I am a Cybersecurity Learner with a strong passion for finding vulnerabilities, understanding how systems work and building secure applications. I enjoy Linux, scripting, networking and web security. My goal is to become an Aspiring Security Researcher and contribute to building a safer digital world.

EDUCATION

🎓 **Bachelor of Arts (B.A.)**
Maharshi Dayanand Saraswati University (MDSU), Ajmer
Completed – 2025

PROJECTS

💻 **Personal Portfolio Website**
A responsive personal portfolio website built with HTML, CSS and GitHub Pages to showcase my skills, projects and blogs.

🛡️ **CyberJourney**
My cybersecurity learning journey project where I document concepts, commands, tools and labs for reference.

🎓 **Education Demo Website**
A demo education website built using HTML & CSS to practice responsive design and layout structure.

📄 **Hash Generator (Python Tool)**
A Python tool to generate MD5, SHA1 and SHA256 hashes for any given input.

🔒 **Base64 Encoder / Decoder**
A simple Python tool to encode and decode strings using Base64 encoding.

EXPERIENCE

Cybersecurity Self Learning

2024 – Present

- Learning Linux
- Python
- Bash Scripting
- Networking
- Git & GitHub
- Security Concepts
- Building Projects
- Continuous Practice

ACHIEVEMENTS

- 15+ Projects (and counting)
- 6+ Public Repositories on GitHub
- Consistent GitHub Contributions
- Active in CTFs and Labs
- Always learning and improving

GOALS

- Become an Aspiring Security Researcher
- Participate in Bug Bounty Programs
- Work on Real-world Security Projects
- Help secure the internet through responsible disclosure

STAY CURIOUS. KEEP LEARNING. KEEP SECURING.
